HAUPA telescoping ladders

haupa®

Info | Classification of ladders

Our ladders are designed and tested according to the EN 131 Standard. They are suitable for both private and **commercial use**. Endurance tests of, for example, 4,000 telescopic slides and other extreme loads, such as the alternating load of the uppermost step of 50,000 cycles, are only a fraction of the requirements that are fulfilled in full and beyond.

The high quality standards make our ladders the perfect companion for the professional.

Aluminium telescoping stepladder

ideal for transport in the smallest of spaces, can be used as stepladders and single ladders

Properties:

- Cross supports for a secure positioning
- with carrying handle
- The 2-stage leg support can be pulled out or remain in the ladder.
- bevelled, non-slip rubber feet for the right angle of attack
- sliding brake for a safe retraction

Art. no.	Length	Rungs	Retracted	Width	Weight
392804	2,3 m	6+2	0,74 m	0,69 m	14,5 kg
392806	3,0 m	8+2	0,79 m	0,76 m	20 kg

Art. no. 392804

Length: 2,3 m

Art. no. 392806

Length: 3,0 m

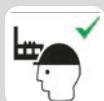

Aluminium telescoping single-ladder

Ideal for transport

Properties:

- variable adjustment of the height by means of lasered height indicators on the steps
- complex, stable cross support (for article 392802)
- more safety and comfort thanks to step extensions and anti-slip grooves
- comfortable pressure closer, easy operation even with wet hands
- sliding brake for a safe retraction
- Rubber caps on feet and upper end

Aluminium stepladder

Versatile use and easy to transport and stow away thanks to the folding mechanism

Properties:

- 2 single steps per side + 1 main step
- the corrugated surface of the steps prevents slipping
- when opened, the step reaches a height of 59 cm
- low weight of **2.5 kg** thanks to robust aluminium
- loadable up to 150 kg
- with folding lock
- non-slip stand feet

Art. no.	Height	Steps	Width	Weight
392810	590 mm	2x3	400 x 560 mm	2,5 kg

Art. no. 392810

Height: 59 cm
